ACTISORB™ Silver 220 Antimicrobial Binding Dressing

Prepare your Wound (follow your doctor’s instructions*)

- Cleanse the wound
- Moisten the wound
- Other: ___________________________________________________________________

Apply your Dressing (see reverse side)

1. Carefully remove the dressing from the pouch using an aseptic technique and forceps.
   a. If necessary, you can fold the dressing to fit the wound shape.
   b. ACTISORB™ Silver 220 Dressing should not be cut, as particles of activated carbon may get into the wound and cause discoloration.

2. Gently apply ACTISORB™ Silver 220 Dressing to the wound. Either side of ACTISORB™ Silver 220 Dressing can be placed on the wound.
   a. The properties of the dressing are most fully utilized when ACTISORB™ Silver 220 Dressing makes direct contact with the wound.

3. Cover and secure ACTISORB™ Silver 220 Dressing with a secondary dressing such as one from the KERRAFOAM™ Dressings.
   a. Choose the secondary dressing based on the level of exudate.
   b. If required, the dressing may be held in place to aid application.

Dressing Preparation
1. Gently apply ACTISORB™ Silver 220 Dressing to the wound. Either side of ACTISORB™ Silver 220 Dressing can be placed on the wound.
   a. If necessary, you can fold the dressing to fit the wound shape.
   b. ACTISORB™ Silver 220 Dressing should not be cut, as particles may get into the wound and cause discoloration.

Dressing Application
1. Gently apply ACTISORB™ Silver 220 Dressing to the wound. Either side of ACTISORB™ Silver 220 Dressing can be placed on the wound.
   a. The properties of the dressing are most fully utilized when ACTISORB™ 220 Dressing makes direct contact with the wound.

Secondary Dressing Application
1. Cover and secure ACTISORB™ Silver 220 Dressing with a secondary dressing such as one from the KERRAFoAM™ Dressings.
   a. Choose the secondary dressing based on the level of exudate.
   b. If required, the dressing may be held in place to aid application.

Dressing Change and Removal
1. ACTISORB™ Silver 220 Dressing can remain on the wound for up to 7 days, depending on the level of exudate. The secondary dressing can be changed as required.
2. Gently remove the secondary dressing.
3. Gently remove ACTISORB™ Silver 220 Dressing from the wound bed and discard.

NOTE: Specific indications, contraindications, warnings, precautions and safety information may exist for Crawford Healthcare, Systagenix and KCI (Acelity companies) products. Please consult a healthcare provider and product instructions for use prior to application. Rx only.
